

THERMOFORM REGRIND

# ALPHASHCL

Clear post-consumer (PCR) or post-industrial PET regrind produced from thermoform and like-kind food-grade raw material.

■ Material may be hot-washed depending on incoming quality.

## ■ QUALITY SPECIFICATIONS

|                                         |             |                     |
|-----------------------------------------|-------------|---------------------|
| b*                                      | < 2.5       | -                   |
| Bulk density                            | 30 - 35     | lbs/ft <sup>3</sup> |
| IV                                      | 0.58 - 0.65 | dL/g                |
| Metal                                   | < 0         | ppm                 |
| PVC                                     | < 5         | ppm                 |
| Floatables (includes label)             | < 5         | ppm                 |
| Combined color (does not include clear) | < 0         | ppm                 |
| Glass/stone, non-melting                | < 0         | ppm                 |
| Glue                                    | < 1         | ppm                 |
| Low-melts                               | < 5         | ppm                 |
| Moisture                                | < 0.3       | %                   |

## ■ QUALITY ANALYSIS

Each shipment is delivered with a certificate of analysis from our laboratory.

## ■ PACKAGING

- 24-26 palletized 48-60" tall supersacks in each shipment
- 1,700 - 2,000 lbs per supersack
- Pallets are fumigated, grade A
